

RELATIONSHIP PATTERN DIAGNOSTIC

The same relationship. *Different person.* *Every single time.*

You've been here before. *The same loop, different face.* There's a pattern running beneath the surface—a blueprint you can't see but can't escape. It's why you're drawn to certain people. Why the same conflicts emerge. Why you end up feeling the same way, no matter how hard you try.

This diagnostic doesn't guess. It reveals the **exact mechanism**: your core fear, the loop signature, the moment it locks in. Finally understand *why*.

What the diagnostic reveals

01

Your Core Pattern Name

We don't just describe behaviors: we name the unconscious pattern driving your selection of partners and the trajectory of your relationships. *This is you, and it makes sense.*

02

The Four-Phase Loop

From initial spark to eventual rupture: see the predictable narrative arc of your connections. Early phase attraction, the shift when conflict arrives, escalation under stress, and how endings echo across relationships.

DEV TOOLS

03

Why It Keeps Repeating

Understand the *function* of your patterns: why they once kept you safe, how they create the very outcomes you fear, and why awareness alone hasn't been enough to stop them.

05

Shadow Mechanisms

The part of the loop you most want to look away from. Gentle but surgical insight into the self-protective behaviors that keep you stuck, explained with compassion, not judgment.

04

The Internal Contradiction

If you've ever felt like you want closeness but create distance, or crave peace but spark conflict—you're not broken. You're managing competing directives. The report explains why.

Deep AI Personalization

What makes this different

It doesn't tell you what to do.

This isn't advice. It's *explanation*. The goal is to help you see the mechanism clearly enough that when it starts running, you catch it in the first 10%, not the last 90%.

It's identity-safe.

No labels like "toxic," "needy," or "avoidant" pointed at you. Just patterns explained with the underlying logic: *why this made sense, why it doesn't anymore*. Compassionate. Specific. True.

DEV TOOLS

It's yours.

The full report is a 4,000+ word personalized analysis. Not a generic template with your name inserted. *Your* flags, *your* fears, *your* loop, explained in narrative form.

You've answered these questions before: in therapy, in journals, in your own mind.

But you've never seen them assembled into *this*.
